**PRE STORM TIPS**

---

**STORM DAMAGE  
ITS INEVITABLE  
BE PREPARED**

## Pre-Storm Tips

- Keep roof inspected and maintained.
- Keep gutters clear of any debris.
- Close blinds, drapes or curtains to help prevent glass from coming inside the building.
- Own a battery, solar or crank operated weather radio.
- Have medications and first aid supplies for three to five days for you and your pets.
- Have extra cash in case of power outages as you may not have access to an ATM.
- Extra blankets, pillows and towels.
- Own battery-operated flash lights.
- Three to five days of bottled water and non-perishable food.
- Food, water and health records for your pets.
- Any needed health records for yourself and family.
- Owning a portable phone charger.
- Emergency numbers on a laminated card as well as any important documents such as insurance, identification cards, social security cards in water proof bags or containers.
- Safe room for shelter during severe weather.

## Storm Awareness

### Watches:

Severe thunderstorm watches are issued when severe thunderstorms are possible near the area.

Tornado watches are issued when the weather conditions are favorable for the development of severe thunderstorms that could produce tornadoes.

High wind watches are issued when either sustained winds of 40 mph or higher for one hour or more or wind gusts of 58 mph or higher for any duration are possible.

### Warnings:

Severe thunderstorm warnings are issued when severe thunderstorms are occurring in the area. Severe thunderstorms will include winds over 58 mph and/or hail one inch in diameter or larger.

Tornado warnings are issued when a tornado, funnel cloud or cloud rotation has been spotted.

High wind warnings are issued when either sustained winds of 40 mph or higher for one hour or more or wind gusts of 58 mph or higher for any duration are expected.

**SEEK SHELTER IMMEDIATELY WHEN A WARNING IS ISSUED**
